### Conundrum

Despite the authenticity of the coordinates given to the adventurers by the vau scout the exact location of the pre-republican priest body doesn't seem to be easily figured out. The poor accessibility to the polar region and the inappropriate mapping devices are the two obstacles preventing an easy let's go and see trip. They would finally land to the good point if they can figure out that what they are actually looking for is a massive pre-republican vessel wreckage mostly submerged by water and ice. The vessel barely stands afloat thanks to the amount of ice that grew until the days it crash landed.

### The wreckage

The starship is a massive vessel approximately the size of an actual luxury liner. It's ID is the Deidalbada, and the last registered owner is some Magister Dorian Poe of unknown faction of the diasporan era. It is easely accessed from one of the docking stations, but as it is necessary to dig through the ice and to force the omni dock to get inside, it seems that the remaining crew and passengers never left the ship after the crash. However, exploring its empty decks will only show that no hints of the people cruising with this ship has been left behind. A few missing escape pods can indicate that part of them left before the crash. However, according to the current state of the ship, the crash was in fact a controlled landing, as there is not that much damage.

### Exploration

Exploring the whole ship could take a lot of time and might involve a lot of people. A complete check would be made by at least 10 people for 48 hours, with appropriate exploration gear (mostly light as the ship is in deep darkness, and mining material to force most of the doors that are artificially locked by ice and cold).Only a few stand by lights are still functioning, and they will activate is some portions of the ship as moving people would visit the decks. On the main deck there is only one very strange thing that seems to be disturbing in such a picture: an old and well preserved mirror, made of precious would and covered with a piece of ancient fabric that seem top have been preserved through the ages.

While Irène would lead the operations to unveil the spies for the Kurgan Caliphate in the Empire, or at last in Miret and Veneto, Annizze would provide a strike force to fight the Kurgan invaders.

### Unveiling the secret

From allies she has in the Pandemonium system, veterans of the Kurgan War, Saskia learned that there is in Veneto a jumpkey that could link the Rampart and Sargasso systems. The key was taken twenty years ago by the Decados, and copied with the help of a Charioteer Loge and House D'Rouge-Glace. Three copies were made before the Avestites lead a raid to the facility, destroying the master key and the shelter as well. Strangely, an important number of avestites died during the raid when the building collapsed. A copy of the key was taken by a kurgan spy, **Yussuf Meknes\***, one other by **Fergus Rouge\*** for the sake of his master **Sigmeon d'Rouge-Glace\***.

They never opened the chest and don't know how it can be opened (Tech+Security DV 20 Roll with Volt Tools, multiple attempts can be chained, each attempt is 15 min long in a lab, 1 hour in the country).

The real price for the content of the chest are the 30 bottles of EDYE (Elixir of Longevity), worth 800£ apiece. All the Elixir bottles are okay, but one of the EDYE bottles is spoiled (AWA + Alchemy DV 25 from outside to see that, has the content of the bottle seems to bear a lower viscosity).

**Challenge** 3  
**Anchor** Ashoka Sensuki

**Ashoka Sensuki\*** has won full responsibility for the fate of the Vorox roaming in Miret. There are seven of them. They could be enrolled by the forces of the Black Den, but before that they would like to go to the Ungavorox system for spiritual matter. With a guild ship, the Starpointer, she went to the ancestral land of the vorox to have them fulfill their ritual, the Karan, a ritual of becoming a warrior.

She has been fully promoted to an householder seat in one of the Houses, either Decados, D'Rouge-Glace or Li Halan as she wishes.

### Vorox Unit

The team of vorox is composed as follow: **Gramalash**, **Kazuya**, **Adrash**, **Toroko\***, **Karkraaragraa\***, **Nelko\*** and **Gapsi\***

## Jumps

Rampart ↔ Kish ↔ Icon ↔ Ungavorox (17 imperial days)

## Karan Ritual

The Karan is an ancient ritual of becoming, by which the prey becomes the predator. It takes three days to pass the ritual, and it is nowadays something that the few candidates automatically make. We the number of vorox able to achieve it being highly reduced, it has become something closer to a baptism than a real hunt with deadly threats (like it was in its former depiction).

## 6.1.3 Last Course

**Challenge** 4

**Anchor** Calistre d'Ignedin

**Saskia Varnovicz**\* went back as soon as she learned for the retirement of her grand-nephew. Quite angry about that, she tries to keep the resources acquired by Josef to good use. She then asks, as a favor to **Calistre d'Igneden**\* to go to an Auction held in Avaneir to try to get a piece of art for her, the **Trapped Nymph**.

## The Trapped Nymph

A magnificent piece, this real scale marble sculpture of a young woman whose ankle is trapped under a root is estimated to £15000. Saskia wants in fact this piece out of curiosity: a friend of her told her that it saw the piece in **Raban Lamorie Decados** before his demise, and that the face of the figure seems to be a portrait of Saskia. There's no reason someone other than a true amateur d'art would try to acquire the piece...

## 6.1.5 Business Opportunities

**Place** Rampart / Veneto / Salt Province / Miret

**Challenge** 4

Business opportunities are everywhere, but they can rarely be reached by certain guilds on certain markets. Through the help of **Edgar Trudau-Rivecin de la Motte-Vaniez**\*, the actual guildmaster of the metier, new height can be attained on the bio-engineering market around Avaneir. As Edgar as a dept to **Saskia Varnovicz**\*, he will be very grateful to grant resourceful acquisitions to Floyd Carnau.

Having Edgar as a business partner is a good way to establish a long term post in Avaneir, something the Van Dyke Cartel was never able to achieve due to the presence of concurrent Scravers Clan, like the Hakura Sakomi Scravers.

Edgar has interest in getting read from those bandits, and will try a coup against them via the Van Dyke Cartel. He will use his best enforcers to assist the Van Duke Cartel from the shadows, the slayer **Maaraf Tongren**\*.

## Back to the Agathis

The Agathis is a piece that the Vanderen Cartel wants to obtain at all cost. As soon as it is releases from the hands of the Decados, allies of the Vanderen Cartel, Members of the Invisible Path will launch an action to take the relic.

## The Invisible Path

However, the occultists will quickly realize what use can be made of the Agathis, and schism will grow quickly between conservatives and activist members that will luckily break the status quo inside the coven, with the current director of the Coven, **Elias Rastenberg\*** having to deal with rebels activists lead by the bold **Farad Ashara\***. Few people actually know about the presence of the coven in south Veneto, except for **Larusso Van Gelder\***, the famous chameleon assassin, and **Fiona D'Enguerrand\***, Minister of External Affairs of the Black Dragon Den and actual leader of the Favyana Coven based in the Den.

## Favyana

Having heard of the event and its circumstances, Fiona will try to join the players as soon as possible. Of course, evoking directly what she is involved with is not something that she will do, and if she cannot figure out there's an occultist among the player, she will push on the neutrality of **Larusso Van Gelder\*** either to get closer to the character (he won't charge her for that) or to be her ambassador if the things are getting trickier.

## Invisible Schism

During the attack of the Orthodox Guards in the Cathedral, twelve of them were killed by the covenant. This will cause a lot of doubt about the players credibility if they try to open lines of communication with those murderous heretics.

Actually, the members of the Invisible Path have return to their hidden shelter in Rudolph, but fearing for the consequences of their act, a bold move but totally missing insight, Elias has decided to fire them. Of course, he let them go with the Agathis, but he as them closely watched by **Kyoko Zee M'ai\***, a neutral occultist close to **Irène de Glacemer\***, that will help him out of preserving the tranquillity of **Rudolph**.
